50 to 2,500 barrels per day for utility and drinking water

In response to the rapidly changing needs of today's drilling industry, H2O has developed a new line of rental units. These units offer our customers the following advantages:

1. Reduction of boat runs
2. Reduction of the time spent loading and unloading water
3. No weather concerns off loading water
4. No crane time to move hoses
5. No risk of contamination of potable water tank
6. Under 30 minutes of maintenance per week
7. Three stage pre-filtration system for operation in shallow water
8. Online water quality monitoring with automatic bad water reject
9. All water potable
